## DEFINITIONS

CCF 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

**Customer charge and base amount.** Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

**Gas Cost Adjustment (GCA)** is the cost CenterPoint Energy pays for the gas it delivers to its customers.

**Storage inventory charge** allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

**Reimbursement of local franchise fee** is a fee paid to the city for the company's use of right-of-way in streets and alleys.

**Reimbursement of state gross receipts tax** is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 713-659-2111.

## Always call 811 before digging

For safety's sake, you are required by law to call 811 at least two working days before digging on your property so that any underground utility lines can be marked.

It's safe. It's free. It's the law.

**Call811.com**

161863\_CNP

## No-spin laundry tips that lower energy use

- Use your washer's cold cycle. Heating water uses more energy and today's detergents work well in cold temps.
- Wash full but not packed loads. Water circulation helps cleaning and rinsing actions.
- Do laundry during morning or night hours. Appliances heat up the rooms where they are located.
- Frequently clean your dryer's lint screen to cut drying time and prevent lint-trap fires.

**CenterPointEnergy.com/LaundryTips**

187140

## Be safe: Store flammable products away from gas or electric appliances

Flammable liquids like solvents, paint thinners, adhesives and gasoline make jobs around the house easier. But they can be deadly if their heavy fumes come in contact with even a small spark. Store flammable products away from ignition sources like water heaters, electric motors or switches.

**CenterPointEnergy.com/Flammables**

175348

**KEEP FLAMMABLE LIQUIDS AWAY FROM SPARKS**

## Manage your account your way with our MOBILE-FRIENDLY *My Account*

It makes doing business with us easy and convenient, whether you're at home or away.

- ✓ View and print bill in the same layout as your paper bill
- ✓ Turn off paper and turn on payment alert
- ✓ Schedule a payment or set up automatic payments
- ✓ Set up Average Monthly Billing
- ✓ View your usage history
- ✓ Track a service appointment

**CenterPointEnergy.com/MyAccount**

## A safety message from CenterPoint Energy

**If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815.** Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

**Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba.** No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

### How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the "thousand-foot" dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the "10-thousand" dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned "same or lower number rule" must be applied. Since the pointer in the "thousand-foot" dial to the right is nearer the 8 and the pointer has not reached the 0, the "10-thousand" dial should be read as 8.

3. Read the "100-thousand" dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the "10-thousand" dial is between 8 and 9, take the lower reading number, 1, for the "100-thousand" dial.

4. Read the left-most dial, the "million-foot" dial. The pointer is near the 6. Using the "same or lower number rule", we find the pointer on the dial to the right is between 1 and 2, so we read the "million-foot" dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.

**DEFINITIONS**

CCF 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

Customer charge and base amount. Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

Gas Cost Adjustment (GCA) is the cost CenterPoint Energy pays for the gas it delivers to its customers.

Storage inventory charge allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

Reimbursement of local franchise fee is a fee paid to the city for the company's use of right-of-way in streets and alleys.

Reimbursement of state gross receipts tax is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 713-659-2111.

## Do you know what these signs mean?

Markers designed like these – and usually in bright yellow – mean there’s a pipeline nearby.

It’s never safe to dig without first getting underground utility lines marked. Call “811” at least two days before starting your project.

It’s safe. It’s free. It’s the law.

**CenterPointEnergy.com/Call811**

186680\_CNP

## DIY: Weatherization 101

Adding insulation is a cost-effective way to reduce your home’s heating and cooling bills.

In the winter, heat flows from heated living spaces to unheated attics, basements and through ceilings, walls and floors. During cooling season, heat flows from the outdoors to the interior. Proper insulation provides an effective resistance to the flow of heat.

For tips, tools and advice, visit **Energy.Gov/EnergySaver**.

174421\_HOU

## A safety message from CenterPoint Energy

If you smell natural gas, leave immediately. Call our Gas Leak Hotline at 800-296-9815. Do not use or store flammable products such as gasoline in the same room or area near the water heater or any other gas appliance.

Si percibes un olor a gas natural, sal inmediatamente. Llama a nuestra línea telefónica para fugas de gas a uno de los números de teléfono que aparecen arriba. No use ni almacene productos inflamables tales como gasolina en la misma habitación o en áreas cercanas a un calentador de agua u otro tipo de aparato a gas.

### How to read your meter

The following is an example of how to read a typical meter index.

Look at the four dials with their curved arrows. Read from right to left as follows:

1. Read the “thousand-foot” dial as 7, the last number that the pointer passed. Note that the curved arrow on the dial shows a clockwise movement of the pointer.
2. Read the next dial, the “10-thousand” dial. The curved arrow on the dial above shows a

counterclockwise direction. The pointer is near the 9, but to be sure whether to read it as that number or the lower number 8, the previously mentioned “same or lower number rule” must be applied. Since the pointer in the “thousand-foot” dial to the right is nearer the 8 and the pointer has not reached the 0, the “10-thousand” dial should be read as 8.

3. Read the “100-thousand” dial, it seems to point to 2. Double-check by using the rule above. Since the pointer of the “10-thousand” dial is between 8 and 9, take the lower reading number, 1, for the “100-thousand” dial.

4. Read the left-most dial, the “million-foot” dial. The pointer is near the 6. Using the “same or lower number rule”, we find the pointer on the dial to the right is between 1 and 2, so we read the “million-foot” dial exactly as the number it is on or near, 6.

The entire meter reading is 6187.

**DEFINITIONS**

CCF 1 CCF = 100 cubic feet of gas. This is how we measure your monthly usage.

**Customer charge and base amount.** Covers fixed costs for reading meters, issuing bills, maintaining facilities and gas lines, postage, etc. These costs occur even if you do not use gas during a billing period.

**Gas Cost Adjustment (GCA)** is the cost CenterPoint Energy pays for the gas it delivers to its customers.

**Storage inventory charge** allows the Company the opportunity to recover the regulated carrying cost of its investment in storage.

**Reimbursement of local franchise fee** is a fee paid to the city for the company's use of right-of-way in streets and alleys.

**Reimbursement of state gross receipts tax** is a tax imposed by the State of Texas on each utility company located in an incorporated city having a population of more than 1,000.

For a more detailed description of each of the terms used on your bill, please visit [CenterPointEnergy.com/definitions](http://CenterPointEnergy.com/definitions) or call Customer Support at 713-659-2111.
